

300~900 Watt Modular Power Supply offers Medical Safety Approvals

PowerGate LLC introduces the ACE Series of 300-900 Watt High Reliability Modular Power with Medical Safety Approvals. The ACE Series consists of 4 Power Platforms offering 300 / 450 / 650 / 900 Watts of Power that can be configured with a selection of 32 different output modules to provide millions of possible output configurations for medical and low leakage applications.

The ACE Series of modular power supplies offers the best-in-class reliability with an extremely low failure rate of only 104 parts per million, making these products the ideal solution for critical medical applications. Standard features include Universal AC Input with Active Power Factor Correction; Single and Dual Output modules with output voltages ranging from 1.6 ~ 56 VDC; Advanced Status and Control Signals including remote on/off, current share, voltage monitoring, remote sense, power fail and Auxiliary Fan output; 80% Operational Efficiency; -20~+70°C operating temperature range; options for parallel and series connections; and optional ultra low leakage of less than 150µA at 230 VAC input. The supplies are safety approved to UL2601-1 / TUV EN60601-1 Safety Standards, are RoHS Compliant, bear the CE Mark (LVD) and meet Class B Emission Standards.

Evaluation units are configured in 3 to 5 working days with typical production lead time of 4 weeks. Complete specifications are available for download from www.powergatellc.com/partner-product/2/4.htm. Standard pricing is as low as 50 cents per watt for OEM quantities. Contact PowerGate for sales and application support at sales@powergatellc.com or (866) 588-1750.
